SNRHA's Narrative of Services

I. Introduction

In order to improve the utilization of voucher funding and increase the number of available affordable housing units in the following counties in the jurisdiction of the Southern Nevada Regional Housing Authority (SNRHA), the SNRHA intends to project base up to 350 of its Annual Contributions Contract (ACC) vouchers for new construction, rehabilitated and existing housing units, to provide affordable housing to low-income residents in Clark County, Nevada.

The Southern Nevada Regional Housing Authority is seeking owners and developers interested in project basing newly constructed, rehabbed and/or existing housing that are of high quality and that provide access to transportation, health services, schools, and other supportive services. The required area for Project-Based Voucher units will be areas within the jurisdiction of the Southern Nevada Regional Housing Authority (SNRHA). The statutory goal of project basing units is to deconcentrate poverty and expand housing and economic opportunities for low-income families.

The SNRHA is amending this RFP to establish the following limits:

- Up to 250 Project Based Voucher units may be awarded to Existing Housing with Supportive Services
- Up to 100 Project Based Voucher units may be awarded for New Construction/Rehabilitation with Supportive Housing. A preference will be given to new construction/rehabilitation projects that will provide supportive services and who commit to provide permanent supportive housing in Clark County. However, all owners are welcome to apply.

The Southern Nevada Regional Housing Authority does business in accordance with all equal opportunity and federal fair housing laws. The SNRHA does not discriminate against any person or business because of race, color, religion, sex, handicap, familial status, or national origin.

Under this Request for Proposal (RFP) and subject to funding availability, SNRHA will provide up to 350 vouchers for project-based assistance.

Program Information

Under the PBV program, the Southern Nevada Regional Housing Authority enters into a Project-Based Voucher Housing Assistance contract with the owner for specified rental units, for a specified term (up to twenty years) subject to funding availability. Assistance or subsidy can be provided to existing tenants as long as the existing family is income-eligible and the units meet other program requirements, like Housing Quality Standards (HQS) or its successor protocol, National Standards for the Physical Inspection of Real Estate (NSPIRE). To fill any vacant project-based units, the Southern Nevada Regional Housing Authority will establish and manage a separate waiting list for PBV developments. The SNRHA's subsidy standards determine the appropriate unit size for the family composition and all families must come from the SNRHA's waiting list unless they are eligible low-income in-place tenants.

PBV assistance may also be authorized for newly constructed housing developed pursuant to an Agreement to Enter into a PBV HAP Contract (AHAP) as long as construction has not commenced.

Housing units and/or projects that are NOT eligible for PBV assistance include:

- Shared housing;

- Units on the grounds of a penal, reformatory, medical, mental, or similar public or private institution;
- Nursing homes or facilities providing continuous psychiatric, medical, nursing service, board, and care, or intermediate care (assistance may be approved for a dwelling unit in an assisted living facility that provides home health care service such as nursing and therapy for residents of the housing);
- Units owned or controlled by an educational institution or its affiliate and designed for occupancy by the students of the institution;
- Manufactured homes;
- Cooperative housing;
- Transitional housing;
- Owner-occupied housing;
- Units occupied by an ineligible family;
- Subsidized housing types determined ineligible in accordance with HUD regulations.

Generally, the number of PBV assisted units per project cannot exceed the greater of 25 units in a project or 25 percent (25%) of the total number of dwelling units in a project, except as provided by regulation. Exceptions include units in a building that are specifically made available for qualifying households that are elderly, or that are eligible for supportive services, or where the project is located in a census tract with a poverty rate of 20 percent or less, as determined in the most recent American Community Survey Five-Year Estimates.

Sites selected for PBV assistance must be:

- Consistent with the goal of expanding housing and economic opportunities;
- Deconcentrating poverty
- In full compliance with the applicable laws regarding nondiscrimination and accessibility requirements;
- Meet HQS (or its successor protocol, NSPIRE) site standards; and
- Must meet HUD regulations for site and neighborhood standards.

Activities under the PBV program are subject to HUD environmental regulations and may be subject to review under the National Environmental Policy Act by local authorities.

When newly constructed housing sites are selected for PBV assistance, the SNRHA will enter into an Agreement to Enter into a Housing Assistance Payments Contract (AHAP). The owner must agree to develop the contract units to comply with HQS (or its successor protocol, NSPIRE). SNRHA may elect to establish additional requirements for quality, architecture, or design of PBV housing, over and above the HQS (or its successor protocol, NSPIRE). The owner and the owner's contractors and subcontractors must comply with all applicable state and federal labor relations laws and regulations, federal equal employment opportunity requirements, and HUD's implementing regulations.

The SNRHA will enter into a Housing Assistance Payments (HAP) contract with the owner for existing units selected that are approved for PBV assistance. The SNRHA will make housing assistance payments to the owner in accordance with the PBV HAP contract for those contract units leased and occupied by eligible households during the HAP contract term.

SNRHA has no responsibility or liability to the owner or any other person for the family's behavior or suitability for tenancy. The owner is responsible for screening and selection of the family referred by SNRHA to occupy the owner's unit based on their tenancy histories. At least seventy-five percent (75%)

of the households approved for tenancy shall be households whose annual income does not exceed thirty percent (30%) of the median income for this area as determined by HUD and as adjusted by family size.

During the course of the tenant’s lease, the owner may not terminate the lease without good cause. “Good cause” does not include a business or economic reason or desire to use the unit for an individual, family, or non-residential rental purpose. Upon expiration of the lease, the owner may: renew the lease; refuse to renew the lease for good cause; refuse to renew the lease without good cause.

The amount of the rent to the owner is determined in accordance with HUD regulations. Except for certain tax credit units, the rent to the owner must not exceed the lowest of:

- An amount determined by SNRHA, not to exceed 110 percent of the applicable fair market rent (FMR) for the unit bedroom size minus any utility allowance;
- The reasonable rent; or
- The rent requested by the owner.

Currently 100% of the Fair Market Rents as published by HUD effective 10/1/2022 are as follows:

SNRHA	HUD 2023 Fair Market Rent by Bedroom Size (Effective 10/1/2022)*					
	0	1	2	3	4	5
Clark County	\$1046	\$1212	\$1457	\$2071	\$2464	\$2834

*Fair Market Rents are published by HUD and are subject to change.

In no event will the rent exceed 110 percent of HUD’s published Fair Market Rent less tenant-paid utility allowances. The utility allowance schedule will be provided upon request.

An independent reasonable rent study will be prepared to ensure the rent is reasonable. The total rent to the owner for PBV assisted units consists of the tenant rent (the portion of the rent to the owner paid by the family) and the rental assistance paid by SNRHA in accordance with the contract with the owner. The SNRHA determines the tenant rent in accordance with HUD requirements.

The rules and requirements for the Project-Based Voucher Program are included in SNRHA ‘s Housing Choice Voucher (HCV) Administrative Plan”, Chapter 17-Project Based Vouchers. Interested parties may request an electronic copy by contacting the SNRHA.

II. Site Selection Standards

SNRHA will select proposals and enter into a HAP contract for those units meeting the following general criteria:

1. Project Based Voucher assistance for housing at the selected site is consistent with the goal of deconcentrating poverty and expanding housing or economic opportunities based upon the following considerations (Specific factors are discussed at 24 CFR 983.57):
 - a. Does the proposed project comply with PBV goals, civil rights requirements and HQS (or its successor protocol, NSPIRE)?

- b. Is the proposed PBV development in a HUD designated Enterprise Zone, Economic Community, or Renewal Community?
 - c. Is the PBV development located in a census tract where concentration of assisted units will be or has decreased as a result of public housing disposition and/or demolition?
 - d. Does the proposed area fall within a census tract that is undergoing significant revitalization?
 - e. Have there been state, local, or federal dollars invested in the area?
 - f. Have new market rate units been developed in this area as to positively impact the poverty rate in the area?
 - g. Is the poverty rate in the area where the proposed PBV development will be located greater than 20%? If so, SNRHA may look at the poverty trend over the previous five (5) years.
 - h. Does the area offer meaningful opportunities for educational and economic advancement?
2. The site is suitable from the standpoint of facilitating and furthering full compliance with the applicable provisions of Title VI of the Civil Rights Act of 1964 and any other subsequent act outlining fair housing.
- a. Must meet HUD regulations for site and neighborhood standards as described in 24 CFR 8.4 (b) (5).
 - b. The site meets the HQS (or its successor protocol, NSPIRE) site standards in 24 CFR 982.401 (1).
 - c. Be adequate in size, exposure, and contour to accommodate the number and type of units proposed and have adequate utilities and streets available to service the site.
 - d. Promote a greater choice of housing opportunities and avoid undue concentration of assisted persons in areas containing a high proportion of low-income persons.
 - e. Be accessible to social, recreational, educational, commercial, and health facilities and services and other municipal facilities and services equivalent to those found in neighborhoods consisting largely of unassisted similar units.
 - f. Be located so that travel time and cost via public transportation or private automobile from the neighborhood to places of employment is not excessive.
 - g. Must not be located in an area of minority concentration unless SNRHA determines that sufficient, comparable opportunities exist for housing for minority families in the income range to be served by the proposed project outside areas of minority concentration or that the project is necessary to meet overriding housing needs that cannot be met in that housing market area and must not be located in a racially mixed area if the project will cause a significant increase in the proportion of minority to non-minority residents in the area.

III. Ineligible Housing Units

Housing units and/or projects that are NOT eligible for PBV assistance and will not be eligible for development partnership include:

- Shared housing;
- Units on the ground of a penal, reformatory, medical, mental, or similar public or private institution;
- Nursing homes or facilities providing continuous psychiatric, medical, nursing service, board and care, or intermediate care (assistance may be approved for a dwelling unit in an assisted living facility that provides home health care service such as nursing and therapy for residents of the housing);
- Units owned or controlled by an educational institution or its affiliate and designed for occupancy by the students of the institution;
- Manufactured homes;
- Transitional housing;
- Owner-occupied housing;
- Units occupied by an ineligible family; or
- Any other subsidized housing types determined ineligible in accordance with HUD regulations.

IV. Eligibility requirements

SNRHA is providing awards of Project Based Vouchers to new construction, rehabbed and existing housing sites. All selected sites must meet the site selection policies as outlined in the SNRHA administrative plan, including the following:

Existing and Rehabilitated Housing

1. Be adequate in size, exposure and contour to accommodate the number and type of units proposed and adequate utilities and streets must be available to service the site (The existence of a private disposal system and private sanitary water supply for the site, approved in accordance with law, may be considered adequate utilities.)
2. Promote greater choice of housing opportunities and avoid undue concentration of assisted persons areas containing a high proportion of low-income persons.
3. Be accessible to social, recreational, educational, commercial and health facilities and services and other municipal facilities and services that are at least equivalent to those typically found in neighborhoods consisting largely of unassisted, standard housing of similar market rents.
4. Be so located that travel time and cost via public transportation or private automobile from the neighborhood to places of employment providing a range of jobs for lower-income workers is not excessive. While it is important that housing for the elderly not be totally isolated from employment opportunities, this requirement need not be adhered to rigidly for such projects.

New Construction

1. Be adequate in size, exposure and contour to accommodate the number and type of units proposed and adequate utilities (water, sewer, gas, and electricity) and streets must be available to service the site
2. The site must not be located in an area of minority concentration and must not be located in a racially mixed area if the project will cause a significant increase in the proportion of minority to non-minority residences in the area (see exceptions under "Minority Concentration")
3. The site must promote greater choice of housing opportunities and avoid undue concentration of assisted persons in areas containing a high proportion of low-income persons.
4. The neighborhood must not be one that is seriously detrimental to family life or in which substandard dwellings or other undesirable conditions predominate, unless there is actively in progress a concerted program to remedy the undesirable conditions.
5. The housing must be accessible to social, recreational, educational, commercial, and health facilities and services and other municipal facilities and services that are at least equivalent to those typically found in neighborhoods consisting largely of unassisted, standard housing of similar market rents.
6. For new construction, housing designed for elderly persons must consider, travel time, and cost via public transportation or private automobile from the neighborhood to places of employment providing a range of jobs for lower-income workers and must not be excessive.

Minority Concentration

The site must not be located in an area of minority concentration, except as permitted herein. A project may be located in an area of minority concentration only if:

- a. Sufficient, comparable opportunities exist for housing for minority families in the income range to be served by the proposed project outside areas of minority concentration (see paragraph (3)(c), (d), and (e) of this section for further guidance on this criterion); or
- b. The project is necessary to meet overriding housing needs that cannot be met in that housing market area (see paragraph (3)(f) of this section for further guidance on this criterion).
- c. As used herein, "sufficient" does not require that in every locality there be an equal number of assisted units within and outside of areas of minority concentration. Rather, application of this standard should produce a reasonable distribution of assisted units each year, that, over a period of several years, will approach an appropriate balance of housing choices within and outside areas of minority concentration. An appropriate balance in any jurisdiction must be determined in light of local conditions affecting the range of housing choices available for low-income minority families and in relation to the racial mix of the locality's population.
- d. Units may be considered "comparable opportunities," as used herein, if they have the same household type (elderly, disabled, family, large family) and tenure type

- (owner/renter); require approximately the same tenant contribution towards rent; serve the same income group; are located in the same housing market; and are in standard condition.
- e. An evaluation of the application involves assessing the overall impact of HUD-assisted housing on the availability of housing choices for low-income minority families in and outside areas of minority concentration, and must consider the extent to which the following factors are present, along with other factors relevant to housing choice:
- i. A significant number of assisted housing units are available outside areas of minority concentration.
 - ii. There is significant integration of assisted housing projects constructed or rehabilitated in the past 10 years, relative to the racial mix of the eligible population.
 - iii. There are racially integrated neighborhoods in the locality.
 - iv. Programs are operated by the locality to assist minority families that wish to find housing outside areas of minority concentration.
 - v. Minority families have benefited from local activities (e.g., acquisition and write-down of sites, tax relief programs for homeowners, acquisitions of units for use as assisted housing units) undertaken to expand choice for minority families outside of areas of minority concentration.
 - vi. A significant proportion of minority households have been successful in finding units in non-minority areas under the tenant-based assistance programs.
 - vii. Comparable housing opportunities have been made available outside areas of minority concentration through other programs.
- f. Application of the “overriding housing needs” criterion, for example, permits approval of sites that are an integral part of an overall local strategy for the preservation or restoration of the immediate neighborhood and of sites in a neighborhood experiencing significant private investment that is demonstrably improving the economic character of the area (a “revitalizing area”). An “overriding housing need,” however, may not serve as the basis for determining that a site is acceptable, if the only reason the need cannot otherwise be feasibly met is that discrimination on the basis of race, color, religion, sex, national origin, age, familial status, or disability renders sites outside areas of minority concentration unavailable or if the use of this standard in recent years has had the effect of circumventing the obligation to provide housing choice.

Non-Compliant Applications

If the SNRHA determines that an application is non-compliant with this RFP (i.e., outside of the SNRHA’s jurisdiction) or HUD program regulations, the application will be returned to the applicant with its deficiencies described. The SNRHA will give the applicant ten (10) business days to correct all deficiencies. The application will be considered for the program if the missing information is submitted within this time period.

The SNRHA reserves the right to reject applications at any time for misinformation, errors, or omissions of any kind, regardless of the stage in the process that has been achieved.

- Certification that the owner and other project principles are not on the U.S. General Services Administration list of parties excluded from Federal procurement and non-procurement programs.
- Proposed initial gross rents must be within 110% of the HUD published Fair Market Rent for the size of the unit or any approved exception rents approved by HUD.
- Property meets eligibility requirements under §983.52 (Eligible Housing Type), and §983.57 (Site selection standards).
- Property will be constructed in accordance with §983.55 (Prohibition of excess public assistance), if applicable.
- If new construction or rehabilitation, no construction has begun.

- Not more than 25 units or 25 percent of units (whichever is greater) per building are eligible for PBV assistance, except units in a building that are specifically made available for qualifying households:
 - That are elderly (age 62 or older);

In these cases, 100 percent of the units in such buildings are eligible for PBV assistance.

Where the project is located in a census tract with a poverty rate of 20 percent or less, as determined in the most recent American Community Survey Five-Year estimates, the project cap is the greater of 25 units or 40% of the units in the project.

If a project does not meet the requirements indicated above, it will be designated non-compliant. A notice mailed to the applicant will identify the disqualifying factor.

Proposals that meet the requirements will be evaluated and ranked by the SNRHA panel. A ranking list will be prepared according to the points awarded to each proposal. The SNRHA may, at its discretion, select one or more of the proposals submitted, or none of the proposals submitted.

The SNRHA reserves the right to reject any or all proposals, waive any informalities in the RFP process, or terminate the RFP process at any time if deemed by the SNRHA to be in its best interest. The SNRHA reserves the right to reject and not consider any proposal that does not meet the requirements of this RFP, including but not necessarily limited to incomplete proposals and/or proposals offering alternate or non-requested services. The SNRHA shall have no obligation to compensate any applicant for any costs incurred in responding to this RFP.

Other Requirements

1. Before executing an Agreement with any selected owner for newly constructed or existing housing, the owner and SNRHA must:

- a) Establish rents in accordance with §983.301 and §983.302.
- b) Obtain environmental clearance in accordance with §983.58, if applicable
- c) Obtain a subsidy layering review, if applicable
- d) Submit a certification to the HUD field office stating that the unit or units were selected in accordance with SNRHA 's approved unit selection policy.

2. The local HUD field office or their designee will conduct the subsidy layering and environmental reviews, if applicable

3. In the event SNRHA is selected for the award of PBV's, a HUD-approved independent entity will review the PHA's PBV selection process, establish the PBV contract rents, inspect the units and establish the initial and any renewal terms of the Hap-C in accordance with PIH Notice 2017-21.
